Reference Service is an essential service in a Library. To do efficient service, the Library should have a good collection of reference tools and efficient techniques to operate. The reference materials available in the CFTRI Library are being used by the research staff and students.

It is felt that a list of reference material will be very useful to Library and Consultancy staff.

Therefore a select bibliography on reference materials available in CFTRI Library has been compiled. The list contained nearly 532 publications, such as Bibliographies, Encyclopaedias, Directories, Handbooks, Yearbooks, Tables, Dictionaries and some of the reference publications brought out by CFTRI. Special references have been made regarding Indian Reference Material denoting an (*).

The list is classified according to colon classification. Each entry has a class number, author, title and also other bibliographical details, such as name of publishers, year and cost. It contains, author and subject index.

The bibliography has been efficiently compiled by Sri S.B. Chennakeshava Das.
